PRESS STATEMENT

STATE HOUSE CHURCH IS UNCONSTITUTIONAL

It is both shocking and unacceptable that President William Ruto is covertly constructing a Church on the premises of State House in Nairobi.

The Atheists In Kenya Society views this action as anti-democratic and a promotion of Christian nationalism by President Ruto. We want to remind the President that Kenya does not belong to Christians only.

At its core, the construction of a Church at the State House threatens the principle of the separation of church and state and undermines Article 8 of the Kenyan Constitution.

We have directed our lawyers to immediately initiate legal action to halt this egregious misuse of taxpayer funds.

Sincerely,

Harrison Mumia
President, Atheists In Kenya Society
