OUR STATEMENT ON THE ABDUCTION OF DR. KIZZA BISIGYE

We vehemently condemn Dr. Kizza Bisigye's kidnapping on Kenyan territory. National, regional, and international laws were all flagrantly disregarded by this punitive act.

The question we ask; the question that Kenyans should now ask: **Is Kenya a constitutional democracy?** How could this have occurred in contemporary Kenya? Winnie Byanyima, Besigye's wife, expressed concern about his disappearance for three days since Saturday, just hours after he was kidnapped.

We understand that the opposition leader has been presented in a Ugandan court today. This kidnapping is reminiscent of the kind of dictatorship and impunity that existed during the Moi Era. **We will now allow Kenya to slide back to the Moi Era dictatorship.**

Sincerely,
