

28th June, 2025

PRESS STATEMENT

BOYCOTT RUTO CHURCHES

Kenya is currently experiencing an unprecedented surge in abductions and murders targeting various individuals. The most recent case involves lawyer Ndiangui Kinyagia, who was last seen on June 21, 2025, following a reported raid by DCI officers at his residence in Kinoo, according to Amnesty International.

According to Christian doctrine, humanity is a creation of God, not merely as a component of His universal creation, but as its pinnacle and as a reflection of God's image. This is a fundamental aspect of the Christian faith regarding humanity: that human dignity is derived directly from the belief in man as the apex of creation, embodying God's image.

In light of this, we urge all Christians to boycott Churches attended by President William Ruto. Christians should not align themselves with a Government that fails to uphold the dignity of human beings.

Sincerely,

Harrison Mumia

President, Atheists In Kenya Society
